Jerome Leads Evelyn Thaw Over the Devious Tracks of Her Life in Gay New York After She Had the Falling Out with Stanford White

with Harry Thow before she married him, but she had already admitted that in half a dozen words. As a matter of fact Jerome's straggling, wandering style of interrogating ner had given her an opportunity to patch up her story in spots.

JEROME SPRINGS A TRAP. Mrs. Thaw declared that she had never spoken to Thaw of any improper relations with any other married man than Stanford White. This

is the first time that Jerome sprang this question. "Did you at any time ever tell Mr. Thaw about having improper relaions with any other married man than Stanford White at any time in your life?" asked the District-Attorney, practically repeating the question, but

'Never," answered the witness leaning forward. "Where did you and Thaw went together when you visited Europe in

"I'll correct it and make it, 'Where did you go together?' " said Jerome,

seeing the point. The girl smiled broadly at the District-Attorney's bad grammar. He laughed, too.

Mrs. Thaw said that the second time she went abroad with the defendant size travelled under her own name. She said she had met May Mo-Kenzie on this trip and had corresponded with her.

From Ninety-first street she had gone to Mrs. Jewitt's. From there to the hospital, where she stayed a month after her second operation. She went to the San Jacinto on Madison avenue from the hospital. "Where did you go from the San Jacinto?"

"I went to Pittsburg and we were married there."

This evidence being in Jerome fell back into the past a dozen months and asked about the paper relating to Thaw that she had signed in Hummel's office in 1903. Evelyn said she had not signed it in Hummel's office. The lawyer had dictated it there, but she had signed it in the Madison Why did you to to the tower?"

"I heard him dictate something, but it wasn't what I had said at all. didn't sign it. I did sign a paper at the tower later.

HER STATEMENT PHOTOGRAPHED

Here Jerome showed the girl what purported to be a photographic of her statement and asked her if she recognized her photographed signature on it. Deimus objected, saying the real statement was better evidence than a photograph. He was overruled. The girl said the photographic signature looked like hr writing, but she wasn't sure. She declared that she had never sworn to any statement anywhere and that she had not seeen the contents of the paper which Stanford White had got her to sign at the Tower shortly after her visit to Abe Hummel's offlice. The District-Attorney said that he would have to call Mr. Hummel,

his stenographer and a notary who had witnessed the signature in order to establish that Evelyn Thaw had really signed to paper. Meanwhile he would have to forego further cross-examination. When he had paved the way for introducing this photograph and cleared up the testimony of Mrs. Thaw about this paper he would be through with her examination.

His request for an adjournment was granted, and the witness sprang down lightly from the stand, beaming upon her husband as she passed behind the jury box. He smiled back.

The attorneys for the defense hurried away to prepare for their crossexamination of Hummel. They expect to show that Jercme has got Hummel convicted for doing what they claim he did to Evelyn Thaw—put into her mouth words she said she never uttered either to him or to Stanford

NO MISTAKE HERE Discovery of a Proof-Reader,

Even a proof-reader may make mistakes unless careful reading is maintained att the time. It makes a lot of difference sometimes just how a thing is read. This is the tale:
"'No tea and not one drop of cof-

fee, ordered the doctor-and I rebelled. But alas, with nerves that saw, felt and heard things that were not, rebellion was useless. "With the greatest reluctance

gave up these lifelong companions and drank milk, milk-until the very step of the milkman grew hateful.
"My nerves were some better, but breakfast without some warm beverage grew wearisome and bid fair to be entirely slighted. And with a brain that for nine hours daily must work hard, ever demanding nonrishment, the failing appetite was a

serious proposition "Then in despair Postum was tried. I had tasted it once and heartly disliked the pale, watery compound, but now, literally starving for a hot drink. I read and re-read the directions on the package with the critical eye of the proof-reader, following them out to the letter, and lo! the rich brown liquid of the advertisements.
